WOLVERINE

"FROM THEN 'TIL NOW" II

1 - WOLVERINE

Wolverine is a man of contradictions; superhero and outlaw, moral philosopher and psychotic, loner and family man. He's a protector of society who feels ill-at-ease within it. He's a breaker of rules who binds himself to a code of honor, a world-famous adventurer who hides behind a false identity, a savage killer of criminals and kind friend to children. He's a beast and a man, all in one person.

"FROM THEN 'TIL NOW" II

2 - CHANGE

Various writers, artists and editors have been responsible for guiding Wolverine's development over the years at Marvel Comics. He has changed a great deal over that time; in fact, if some of the initial plans for Wolvie had been carried out, he would be a very different character today!

WOLVERINE

"FROM THEN 'TIL NOW" II

3 - MUTATION

In the early days, Wein and Cockrum had toyed with the idea of revealing that Wolvie was indeed an actual wolverine who had been mutated into a human being, possibly by the monster geneticist, the "High Evolutionist." This idea was quickly discarded.

WOLVERINE

"FROM THEN 'TIL NOW" II

4 - FOX-LIKE

Wanting to create a new team of X-Men, Roy Thomas and Dave Cockrum developed a number of characters to possibly join that team. Among them was a female vampire character and her brother, "a vulpine type, an animalistic, bestial, feral (character) called Wolverine." This Wolverine had fangs, not claws, but sported the same hairstyle as that of the Wolvie we know today.

"FROM THEN 'TIL NOW"

5 - AGING

Inexplicable, unknown, obscure...these are good adjectives to describe Wolverine's past. The known facts are vague and inconsistent at best. On record, there is no known birth certificate or knowledge of age. Wolverine's mutant healing ability retards the aging process in his body to an unknown degree. Some have speculated that he is old enough to have served as a soldier during World War II.

"FROM THEN 'TIL NOW" II

6 - S.H.I.E.L.D.

Riding his motorcycle, Wolvie breaks in on Nick Fury and convinces him to open the files, which the Feds have on him. Logan learns of the professor and returns to Windsor, Ontario. There he finds additional information on his past and Project X. **NOTE:** Nick Fury knows more about Logan's past but swore an oath not to speak about it.

WOLVERINE

"FROM THEN 'TIL NOW" II

7 - LOGAN

Years ago, possibly while under the influence of alcohol, Logan critically wounded a firing range staff member, causing him to lose his government agent job. Beaten and drugged, Logan was taken captive by a group of mysterious men. He was then placed in a life-support tank where adamantium was pumped and bonded into his skeletal system.

WOLVERINE

"FROM THEN 'TIL NOW" II

8 - PROJECT X

Unwittingly, Logan had become the subject of a special project. The purpose of the Weapon X Program was to create a pool of super soldiers whose awareness of their own powers was selectively erased from their memories. The candidates, Logan among them, were warehoused in the general population until they were needed, and then reactivated and controlled.

9 - PROFESSOR

The visible head of Project X was The Professor, who answered to a higher power who was never revealed. Under the cover of the Department of Agriculture specializing in the pest control section, the Professor ran his covert Project X in Canada at a warehouse fronted as a crop disease research center.

DR. A. B. CORNELIUS

Dr. Abraham Cornelius was responsible for Logan's physical restructuring, retraining and mental reprogramming. Old memories were blocked, while new, false ones were implanted and supported by sound stages, making controlling the subjects easier. **NOTE:** Years later, Cornelius was killed by a gunshot delivered by another Weapon X, Maverick, during the uncovering of the Carbonadium-Synthesizer.

11 - WILD BEAST

"You are a beast. You are an animal born to serve. You have one master and I am he. You will do anything I say. Professor to an unconscious Logan.

NOTE: Logan did get a chance to attack the Professor, but failed to kill him. Logan did leave his mark on his keeper by cutting off his right hand.

12 - HELMET

To control Wolverine at a distance, a special helmet was fitted for him. It enabled the operator to control him at a distance of just over nine miles. **NOTE:** Soldiers who helped with Project X by leading Logan around later defended their lives against him.

13 - I LIKE HIM

Wolverine or the character of Logan has more interest for me than Captain America or something like that. I can relate with that character better than some of the others in the Marvel Universe. He has these stupid spikes sticking out of his hands. But he doesn't fly. And he has a bit more character that the regular superhero type.

WOLVERINE

"FROM THEN 'TIL NOW" II

14 - SHIVA

Shiva is programmed to destroy what Project X created, to restore order and balance by killing all of the Weapon-Xs. The robots are tools of the program which allows for the creation of new smarter bodies each time an old one is defeated. Shiva's body is covered with adamantium blades. **NOTE:** The Weapon Xs on Shiva's list are Wolverine, Sabretooth, Silver Fox, Kestrel, Volet and Mastrodom.

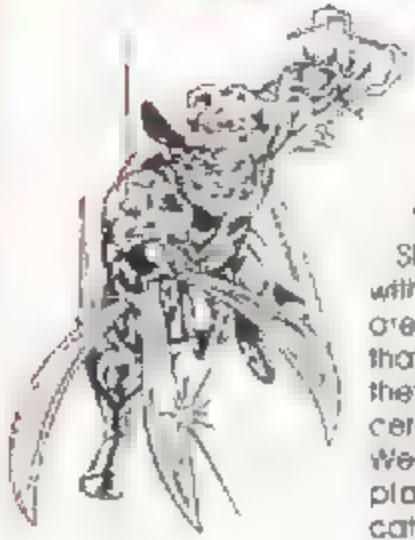
WOLVERINE

"FROM THEN 'TIL NOW" II



15 - TRIGGERS

Shiva is equipped with "triggers," which are electronic pulses that activate neurosynthetic implants in the cerebral cortexes of Weapon-Xs. These implants activate a cataclysmic memory backlash! **NOTE:** Wolverine survived Shiva's trigger and, in fact, ripped the machine to shreds.

16
MUTANT POWERS

Wolverine possesses a healing factor of superhuman speed and efficiency. He has suffered injuries which would surely kill any normal man instantly, but in each case Wolverine has survived. He also has better night vision than any ordinary man and exceptionally acute hearing. Wolverine can identify and track a person by his scent much as a bloodhound can.

WOLVERINE

"FROM THEN 'TIL NOW" II

17 - FEROCIOUS

Originally Wolverine's mutant powers were not those of healing, but those of an actual wolverine. According to Len Wein "What made him a mutant was the fact that he was very ferocious very strong and very fast." In fact Wein said if he had continued to write the X-Men, he might have made Wolvie as strong as Spider-Man.

16 - ADAMANTIUM

Adamantium while invented by Dr. Myron MacLain was used by Japanese scientist Lord Darkwind. He planned to bond molecules of adamantium to the skeleton of living human beings however Lord Darkwind's plans were stolen and he was never able to implement the process. **NOTE:** It was Wolverine's healing factor that made possible the operations that gave him his indestructible adamantium laced skeleton.

WOLVERINE

"FROM THEN 'TIL NOW" II

19 - CLAWS

Wolverine's claws are now a permanent part of his body. They remain hidden in his forearms and shoot forth at his mental command emerging from the back of his hand. Possessing three claws per hand, Wolvie can tear through anything, his claws are among the deadliest weapons in the world. **NOTE** Originally the claws were telescopic and fit into a casing of what were then adamantium gloves covered by cloth.

20 - HUNTING

"I said hunter, nobody bunch — nothin about it. It takes no skill to kill. What takes skill is sneakin' up close enough to a skittish doe to touch her

that's huntin'. Wolverine to Storm. **NOTE:** Wolverine has no last name and goes only by Logan. It has been pointed out that there is a Mount Logan in western Canada but no true connection has been made

WOLVERINE

"FROM THEN 'TIL NOW" II

21 - BERSERK

Throughout his life Wolverine has dealt with the two completely different sides of his personality, the thinking man and the savage beast. At times, when sufficiently provoked the beast takes over and Wolvie is launched into a berserk, nearly unstoppable rage. Not without reason, Wolvie has been termed a psychotic

WOLVERINE

"FROM THEN 'TIL NOW" II

22 - DISCIPLINE

Struggling to master the beast within himself, Wolverine has adopted the way of the Japanese Samurai as a mode of self discipline. Possessing his own personal code of ethics, Wolvie will not hesitate to kill when he feels it's necessary. But he will not tolerate outright, gratuitous murder. **NOTE**: Chris Claremont regards Wolverine as Wolverine regards himself: as a failed samurai, a man who attempts to achieve the total self discipline of the idea Samurai, but never in his own mind, attains his goal.

"FROM THEN 'TIL NOW" II

23 - WILD BEAST

The shock of the operation that gave Logan his unbreakable claws and skeleton drove him insane. Regressing to the state of a crazed animal driven by only the need to survive, he wandered like a wild beast into the snowy wilderness of Canada's Wood Buffalo National Park.

25 - DEPARTMENT H

Taking Logan in the Hudsons helped him cope with his freakish new condition. Realizing his humanity, Logan's condition was brought to the attention of the Canadian intelligence by James Hudson. Hudson decided Canada needed its own super team and chose Logan to become its premier member and leader. Millions of dollars were spent in training Logan to become the superhero Weapon X — or as Logan himself preferred, Wolverine.

26 - FIRST MISSION

While still in Department H, Wolverine had his first encounter with the incredible Hulk. Although Wolverine knew that Hulk was hundreds of times stronger than himself, he was more than eager to take him on in combat. But to Wolvie's surprise, he found the Hulk already locked in battle with the mythical creature known as the Wendigo.

28 - WEAPON ALPHA

Resenting the restrictions and regulations of the Canadian government Wolverine resigned. His departure from Department H set in motion the plans for James Hudson to take on the leadership of Alpha Flight under the code name "Weapon Alpha". His first mission was to hunt down and recapture Wolverine.

NOTE: James Hudson soon took on the name "Vindicator" and later changed it to The Guardian.

32 - TEAMMATES

"What are we going to do with thirteen X-Men?" After their first successful mission, many of the veteran members left the X-Men, while those who stayed felt edgy and unsure among this new team. However, Wolverine found a new friend in Jean Grey. Both felt an attraction although Jean was unwilling to admit it.

33 - JUST KIDDING

Wolverine proved that neither friend nor foe is safe from his rage. During a Danger Room test, Nightcrawler laughed at Wolverine's failure. Infuriated, Wolverine leapt at Nightcrawler, claws popped and ready to rip him to shreds. Had Nightcrawler not teleported himself, Wolvie surely would have killed him.

61 - POPULARITY

Wolverine is self explanatory. I think he's been so popular for so long because he's such a animal -- and also the fact that his weapons are inside of him makes him more appealing. No one could ever take his weapons away from him. It's cool.

64 - APPEAL

There's always something about that kind of character that's always popular. I think the appeal is very basic. If we're all honest with ourselves, that's the kind of super person we want to be... the kind of person who gets tough with anyone who crosses him.
